

Notes:

- Drawing is to scale except for Balcony Rail Lighting Positions.
- Circuits for Electrics 1-5 are dropped from the Gallery and Grid levels
- Due to building architecture, there is no true center hanging positions on FOH positions.
- Battens are 61' long, except the last 5 upstage line which are 55' long
- maximum batten height is 61' -- grid is 61'6"
- maximum weight per arbor is 1716 lbs.
